- *Mario Asselin, Co-CEO, The AirCRAFT Company*
- *Jon Davies, Founder, Owner & Chief Vision Officer, Avooma Airlines*

Other Panellists TBC

17.00 Concluding Remarks

SPEAKERS

Hana Galal, Canada – Sustainability Lead, Airbiz

Hana is the Canadian Sustainability Lead at Airbiz. Hana has fifteen years of global sustainability experience and offers a niche understanding of the sustainability field supporting sustainability plans at airports in Canada, the USA and New Zealand. She was the Manager of Sustainability & Planning at Edmonton Airports for 8 years. Further, her work experience includes analysis on climate change with the United Nations, research on global happiness, sustainable business, and infrastructure planning, environmental assessments in Costa Rica and municipal resource planning with the City of Vancouver.

As a practiced project manager, she pulls together cross-disciplinary insights and creates meaningful end products. She is trusted as a government liaison, employee communicator and presenter to Board of Directors. Hana prioritizes the collective good in decision-making and is committed to supporting aviation to benefit international collaboration.

In 2022, Hana was elected to the ACI-NA OPSID Steering Committee to support the integration of sustainability in planning and engage the next generation in aviation.

Elena Nikonova, VP Strategy for North America and APAC, Skytree

Elena Nikonova, VP Strategy for North America and APAC, is instrumental in identifying and developing large-scale Direct Air Capture (DAC) projects. She focuses on forging strategic partnerships and creating the framework for circular CO2 systems that will drive global decarbonization. Leveraging her experience in scaling innovative technologies, including global e-mobility programs at Shell Recharge and ENGIE (EVBox), Elena brings a unique blend of strategic expertise and a Ph.D. in Applied Mathematics from University College Dublin. Ultimately, she is committed to realizing a sustainable future through the strategic deployment of cutting-edge climate solutions.

Jonathan Wood, Chief Commercial Officer, Nova Pangaea Technologies

Jonathan has extensive c-suite level experience in renewable fuels and the energy industry. He has a track record of developing and transforming international businesses, acquisitions, and investments in assets and new technologies. Prior to joining Nova Pangaea Technologies as Chief Commercial Officer, Jonathan was Vice President at Neste for the Sustainable Aviation Fuel business, where he led most of the key activities that have enabled it to grow to be the global market leader, including commercial and business development. Jonathan has also held commercial leadership roles at BP, where he was responsible for growing the aviation and road transport fuels businesses.

Jonathan graduated in Economics from London University and completed an Executive MBA programme at Harvard Business School.
